

VISION

Progress Executive Services aims to be a key partner for executives within Life Sciences and Pharmaceutical industries, supporting them in their decision-making process and identifying the internal gaps that put their products and projects at risk.

OUR APPROACH

We actively listen to your needs and seek the best way to support you. We use our knowledge and experience, connecting to our vast network when needed, to best support you in reaching your next level.

We believe trust is the basis for our collaboration. We are driven by integrity, high quality standards and customer engagement.

INTERIM EXECUTIVE MANAGEMENT

Do you wish to appoint temporary senior staff to the management of your organization? Due to internal growth in your organization, a temporary vacancy, or do you want to accelerate the execution of an implementation or development plan?

Progress EXS knows the world in which you work and we are happy to support you. Each and everyone of us are people with a proven track record and demonstrated leadership skills, highly motivated to engage with you and drive your company to the next level.

QUICK SCANS

We support you by identifying critical gaps on your product development strategy, with the aim to reduce your time-to-market. We use our in-house developed tools:

- ▶ Scan Time-to-Market (CMC)
- ▶ Scan License-to-Operate
- ▶ Scan Efficient/Effective processes

We deliver a detailed report including all identified gaps, plus a presentation to the executive board providing recommendations to facilitate the internal decision-making process.

MANAGEMENT CONSULTANCY

Our senior consultants can assist you in improving the output performance of your organization. By identifying and analysing your current organizational and operational issues and by defining improvement plans. We can also execute the improvement plans till the change is implemented at your organization.

You will have immediate access to highly specialized experts. We look from the outside at your current situation, and will challenge the status quo if needed.

What can we do for you?

We understand your challenges with license-to-operate and time-to-market needs. Based on a transparent and pragmatic approach we help you with your current strategic and operational challenges. Our senior professionals are ready to evaluate your current situation, finding optimal solutions that can support your organization.
